2.1 Audit Methodology

The assessment was conducted in 2 manday on 04th December 2019 involving 1 estate of **MB AGRICULTURE**. The audit focused mainly on the conformance of the organization against the requirements of certification standard i.e. **MS 2530-3:2013 Part 3: General principles for oil palm plantations and organized smallholders**.

During the audit, audit team has visited the field, line site, workshop, chemical stores, waste collection areas and other surrounding facilities such as clinic, surau and canteen to verify the implementation of the **MSPO MS2530-3**. Interviews with the team management, employees, contractors and other relevant stakeholders. Apart from the above, records as well as other related documentation were also evaluated.

It is important to note that the finding from this audit is based on samples taken from the organization activities, procedures, records and interview. Statistically, there is always a possibility that one or more issues/areas will remain unidentified during the course of this audit. The absence of non-compliance in any area or activity does not necessarily imply that no lapses or non-compliance exist.

2.2 Audit objective

The audit objectives are as follows:

- a) To evaluate the organization conformance against the MSPO standards requirements.
- b) To determine the ability of the management system to ensure that the organization meets applicable statutory, regulatory and contractual requirements
- c) To determine the effectiveness of the management system to ensure that the organization can reasonably expect to achieving its specified objectives
- d) To identify areas for potential improvement of the organization management system (if applicable)
- e) To make appropriate recommendations based on the assessment findings.
